## Details

- Self bunded tanks with UN31A/Y approval for the transport of dangerous goods by road, rail and sea, packaging groups II & III.
- Self bunded cubes are fabricated from high grade mild steel (inner tank) and mild steel (outer tank). An inner tank contains the initial volume of liquid. In the unlikely event that this tank develops a leak the outer tank will prevent the liquid from escaping into the environment.
- The bunded tank has a capacity of 110% of volume. All seams are welded to exacting standards.
- Cube is designed with an easy removable mild steel inner tank for maintenance and inspection.
- Cubes are available in a range of capacities, ideal for transportation by either truck or shipping container and suit most hydrocarbons storage and transport requirements.
- The ultimate in quality at very affordable prices.
- Meet strict quality standards, are PPG2 compliant and EU approved. Designed and approved to AS1692 and AS1940
- All pumps, connections and hoses are housed and can be locked within the bund, even in use!
- Colour is AS2700 "Colour Standards for General Purposes" N14 White
- Can be stacked 3 high when empty and 2 high when full.
- 6300L, 6500L, 10000L and 13000L models are supplied with Overfill Protection Valve / Anti Syphon Valve and Overfill Alarm Unit.
