Alemlube Lockable Diesel Refuelling, Storage & Dispensing Kits

February 2023

The new Alemlube range of large lockable diesel refuelling tank & dispensing kits are available in diesel fuel capacities of 1,200L, 1,000L.

Australian made and designed, these locally manufactured tanks are made from a heavy duty & robustly constructed polyethylene and have a 10 year warranty as proof of quality.

Offered in 2 pump configurations, 80L/min high flow, each kit comes complete with a Piusi 12V diesel pump, 4m of antistatic fuel delivery hose, 2 metre battery cables and an auto shutoff nozzle.

Thus, there are six models available, three with a dispensing kit capable of flow rates of up to 80L/min and three with a dispensing kit.

The unique design of this new range allows the hose and nozzle to be fully usable even when the lid is closed and locked. In addition to increasing security of dispensing kit components and diesel management, this feature also reduces foreign particles and other elements from contaminating the pump housing compartment when in use.

Ideal for onsite use or in a service vehicle, the new lockable diesel refuelling storage & dispensing kits are easily transported from one location to another and provide a convenient on demand system for diesel fuel transfer wherever the need arises.

SPECIFICATIONS, FEATURES AND BENEFITS

- Flow rates of up to 80L/min on the high flow models
- Self-priming 12V electric pump with on/off switch and 2 year warranty
- Self-priming Piusi 12V electric pump with on/off switch and 2 year warranty
- Unique user friendly design with lockable lid to aid diesel fuel and dispensing kit security
- Australian made, heavy duty, robustly constructed polyethylene tank
- Dispensing kits consists of a Piusi 12V pump, 4m antistatic fuel delivery hose, 2m battery cables and automatic shut off fuel nozzle
- Forklift lift points and tie down capability
- Suitable for storing and dispensing diesel fuel only

Dimensions

1200: 1700mm (W) x 1100mm (H) x 999mm (D)

1000: 1700mm (W) x 950mm (H) x 999mm (D)

Part Number	Capacity	Flow Rate
L120080PA	1,200L	80L/min
L100080PA	1,000L	80L/min

Applies to Australian made tanks

Applies to Piusi pump kits
